Skills & Languages

Python, C, C++, JavaScript, SQL, HTML5, CSS, TailwindCSS, Express.js, MongoDB, ReactJS., generative ai, nodejs

Projects

Food Delivery Website

- Developed a full-stack food delivery website using React.js, Node.js, Express, and MongoDB.
- Enabled users to browse restaurants, place orders, and track deliveries in real-time.
- Implemented user authentication, responsive UI, and secure payment integration.

- Created an admin dashboard for managing restaurants, menus, and orders.
- Optimized API calls and routing for better performance and user experience.
- Deployed the project using Heroku/Vercel and MongoDB Atlas for cloud hosting.

Task Manager

- Developed a full-stack Task Manager application using the MERN stack (MongoDB, Express.js, ReactJS, Node.js).
- Implemented user authentication, CRUD operations, and persistent task storage with a responsive UI and RESTful API integration.

E-Commerce Website

Fashion-Design

- Developed a fully functional e-commerce site with ReactJS frontend and Node.js/Express backend.
- Implemented user login, product catalog, shopping cart, order placement, and MongoDB-based order management.
